waterRIDE™ 10 is coming! On Wednesday 11th December, 2019, waterRIDE™ 10 will be launched in our North Sydney offices and represents an exciting new chapter of waterRIDE™'s evolution.

The modern, yet instantly familiar interface embraces our streamlined design philosophy and introduces new and refined workflow and management tools. It's still waterRIDE™, just better.

What is waterRIDE™ 10?

waterRIDE™ 10 represents a strong design shift from v8 with a focus on a modern, lean, fast, clear and spacious interface.
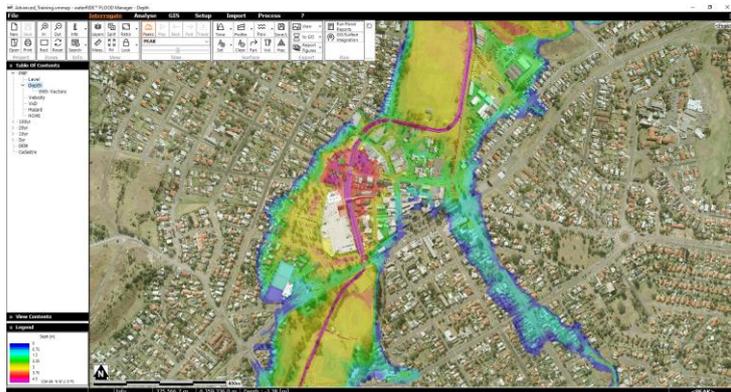

Intuitive workflow-based access to the existing rich array of floodplain management tools merges with a host of new processing and data management tools.

waterRIDE™ 10 addresses the shortcomings of v8's nested menu-driven interface, and introduces *Live Panels* as a key element of its updated UX.

Live Panels are fast, structured, highly visual and, most importantly, "do away" with nested menus.

This means that tools are grouped by overall workflow, then sub-grouped by common actions, making it easy to find the tool you are looking for when you need it.

In *Viewer* mode, *live panels* provide ultimate clarity with all tools visible and nothing "buried" in menus. You can even hide the *live panels* for maximum screen real-estate.

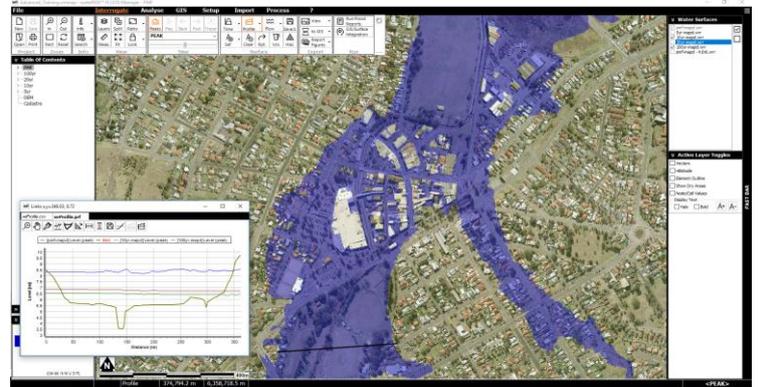

The new FASTBAR is a great example of the new design philosophy. Sliding in from the right side of the screen the FASTBAR facilitates bulk interrogation of multiple surfaces, quick toggling of common view settings as well as the new *tool search"* capability.

A host of new data management tools and centralised application management ensure that waterRIDE™ 10 continues to address the needs of organisations dealing with massive volumes of ever-changing flooding datasets, cementing waterRIDE™ as an enterprise-level tool.

waterRIDE™ 10 will be available to those with valid maintenance plans on 11th December, 2019, following the Launch event.

Rapid multi-surface interrogation using the FASTBAR

waterRIDE™ 10 Launch – Sydney – 2:30pm 11th December, 2019

waterRIDE™ 10 will be officially launched at our North Sydney offices in December 2019.

The event will showcase the new interface and workflow philosophy, highlight key new tools as well as showcase our new Enterprise level frameworks: ENTERPRISE, DATA Manager and "one" waterRIDE™.

The launch will be followed by light refreshments and networking.

To register for the event, please complete the form here.

waterRIDE Group Training (Auckland/Brisbane November 2019) – Now using waterRIDE™ 10

A quick reminder on dates for the rest of this calendar year:

- Brisbane: 28th/29th November, 2019
- Auckland: 26th/27th November, 2019

Both of these sessions will be run using waterRIDE™ 10, so feel free to come along to get a head start.

We have also added a New Year Sydney session on 11th/12th February, 2020.

For full details and registration, see here.
